Director of Technology | Software Engineer • Founder, OER Consulting • Cloud (Azure)

SUMMARY

Director of Technology at Immaculata-La Salle High School (promoted September 15, 2026) and founder of OER Consulting LLC. I lead school-wide technology (device fleet, network, identity, budget) while still building and shipping the production software the school runs on: dozens of internal tools on Azure, plus multi-tenant applications sold through reseller partners. 6+ years across IT, ERP, and software. B.A. in Computer Science. Bilingual (English / Spanish).

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, PowerShell, Bash

Cloud & Identity: Microsoft Azure (Functions, Static Web Apps, SQL, Automation, Arc), Bicep, Entra ID / External ID, MSAL, Microsoft 365, Microsoft Graph, SharePoint

Web & Data: React, Next.js, Prisma, REST APIs, Twilio, dbt, DuckDB, Pandas, Power Automate

IT Leadership: Apple fleet management (Mosyle MDM, Apple School Manager), Ruckus networking, budgeting and vendor management, security audits, E-Rate

Tools: Git/GitHub, GitHub Actions, Cloudflare, Linux, SSH

EXPERIENCE

Director of Technology

Sep 2026 – Present

Immaculata-La Salle High School — Miami, FL

- Promoted from IT Specialist to lead technology for the school: about 1,600 managed Apple devices, campus network and Wi-Fi, identity and access, vendor relationships, and the internal software the school runs on.
- Planned and ran a four-wave iOS, iPadOS, macOS, and tvOS 27.2 rollout with after-school install deadlines and a storage-based device group; cleared 85 stale device records to bring licenses back under the cap.
- Own the technology budget: built a ledger covering leases, 53 recurring subscriptions (about $284K per year), a multi-year refresh plan, and an audit-readiness score, with account totals reconciled to the finance ledger to the cent.

Founder

2026 – Present

OER Consulting LLC — Miami, FL

- Formed a Florida LLC to build, host, and support multi-tenant software for schools and organizations, sold through reseller partners.
- Built the platform end to end: an owner and partner console, a separate database per customer, a two-way texting CRM (shared inbox, campaigns, automatic opt-outs, quiet-hour sending), and a school help desk, on Azure Functions, Azure SQL, Static Web Apps, and Entra External ID, with Bicep infrastructure and CI/CD.
- Defined the commercial model: perpetual license plus monthly support, add-ons, a bundled plan, and partner wholesale pricing, with a partner-only price sheet and customer onboarding and offboarding workflows.

Information Technology Specialist

Jan 2025 – Sep 2026

Immaculata-La Salle High School — Miami, FL

- Designed and shipped a full purchase-order automation platform on a custom domain (po.ilsroyals.com): a dual-approval workflow with a fiscal-year rollover system, replacing a manual paper process for the entire organization.
- Built and deployed more than two dozen internal web applications on Azure with MSAL/Entra ID authentication, including an IT helpdesk (device-break and loaner flows, live device and room location), HR ticketing with confidential case handling, a behavior and discipline platform, an app launcher, and a guest Wi-Fi tool.
- Built an on-premises admin tool that runs pre-approved tasks (directory sync, mail incident response) through Azure Automation and a constrained remote endpoint, so no cloud service can run arbitrary code on a domain controller.

- Conducted a GitHub security audit that identified and remediated exposed automation trigger URLs, hardening the organization's internal tooling.
- Administered the school's Apple fleet via Mosyle MDM and Apple School Manager, including role-based configuration and a 200+ unit device migration event; managed wireless infrastructure, Azure AD permissions, and campus access control.

ERP Specialist Jan 2023 – Nov 2024
Tekmovil LLC — Miami, FL

- Integrated business-intelligence and data-warehouse insights into ERP workflows to support data-driven decision-making.
- Improved data accuracy through regular audits and validation procedures, and supported ERP implementation and migration projects to minimize downtime.
- Led end-user training and change-management efforts during major system upgrades.

IT Specialist Feb 2020 – Jan 2023
Tekmovil LLC — Miami, FL

- Maintained servers and network systems for high availability during peak periods; led IT infrastructure upgrades.
- Configured workstations, hardware, and software, and managed inventory lifecycle across the organization.

Co-Founder Nov 2023 – Dec 2024
Chef Privé (startup) — Miami, FL

- Co-founded and scaled an early-stage venture; led website development, converting mockups into functional web solutions.
- Drove market research and partnership development across 25+ South Florida organizations and 100+ customer interviews, informing product strategy.

PROJECTS

OER Platform (texting CRM + school help desk) — *TypeScript, React, Azure, Azure SQL, Twilio, Bicep*

- Multi-tenant platform with owner and partner roles, one database per customer, and provisioning and offboarding run through CI workflows; live in production with uptime checks, CodeQL, and branch protection.

School Operations Suite (Immaculata-La Salle) — *Next.js, Azure, SharePoint, Microsoft Graph, PowerShell*

- Student Activity Approvals (morning sync from the student information system, conduct and attendance flags), Technology Budget Ledger, Bookings Platform, App Center launcher, and On-Prem Actions.

Algorithmic Trading System ("polybot") — *Python, Flask, REST APIs, DigitalOcean*

- Built and deployed an automated trading bot on a Linux VPS: an LLM ensemble for signal generation, Kelly-criterion position sizing, a multi-layer risk-management system, a Flask monitoring dashboard, and a 20-command operations interface.

NBA Analytics Pipeline — *Python, SQL, dbt, data visualization*

- End-to-end data pipeline ingesting public NBA data through transformation layers into an analytical model with a live dashboard. [github.com/orojas119]

EDUCATION & CERTIFICATIONS

B.A., Computer Science — Florida International University May 2021
Certified Apple Learning Coach (2025)
